

# I Just Want it All

Words and Music by Darrell Aikens

Philippians 4:19

\*capo 1 (Eb)\*

## Verse:

D                                      G                      A                      D  
I want what you have for me, Lord - call me greedy but I want it now  
D                                      G                                      A                                      D  
We want what you have for us, Lord - we're not greedy, we just want it all  
D                                      G                      A                      D  
I was blind and robbed but now I see your riches in glory

## Chorus:

                                    G                                      A                                      D  
I want some of this, some of that - everything I see  
                                    G                                      A                                      D  
I can't explain what it is, that's ok - I'll take it anyways  
                                    G                                      A                                      D  
I want to shout out aloud that I have been redeemed  
                                    G                                      A                                      D  
Took back what was mine and now I have been set free

## Bridge:

D  
I want what you have for me  
D/C  
We want what you have for us  
D/B  
I want what you have for me  
D/A  
We want you have for us  
G                      A                      D  
Lord, we're waiting for you now
